REACH Compliance Statement

The EU regulation EC 1907/2006 which covers the Registration, Evaluation, Authorization and Restriction of Chemical substances is an EU regulation that became effective on June 1, 2007. The purpose of this legislation is to ensure human and environmental health by regulating Substances of Very High Concern, or SVHC's. These substances are listed in the REACH legislation which can be read here - <http://echa.europa.eu/web/guest/regulations/reach/>

Foresight Finishing LLC supplies a service and is not a user of any SVHC substances. None of the end products we service for our customers have any SVHC substances in concentrations above the minimums contained in the legislation. None of our products consist of chemical substances requiring registration or raw materials in any form.

Because of this, Foresight Finishing LLC is not required under REACH to distribute Safety Data Sheet's or Exposure Scenario's to our end users.

Foresight Finishing LLC will continue to monitor our suppliers, and if any substances begin to be included in our products, than we will be required to register and we will inform our customers according to the REACH legislation.

Foresight Finishing LLC, Inc.
